

Final Transnational Meeting

The partners of the "**Digital Inclusion VET**" (**DIVET**) project gathered in the historic city of **Matera** for their final transnational meeting (TPM) and final conference on July 9 and 10. Hosted by the Italian partner **Studio Risorse Srl**, the event marked the culmination of a collaborative effort aimed at improving digital skills in vocational education and training.

Day 1: Project Review and Final Conference

The first day began with a warm welcome from **Studio Risorse**. The morning session was dedicated to a comprehensive review of the project. The partners, led by **IES Gonzalo ANAYA**, presented the activities and results of all work packages, discussing key findings, challenges, and risk assessments. This was followed by

This was followed by an update on dissemination activities and a presentation of the agenda for the main event in the afternoon.

In the afternoon, the project partners held the final conference at the **CTE Matera**. The conference served as a platform to share the project's results and raise awareness of the importance of digital skills.

Day 2: Ensuring a sustainable future

The final day of the meeting was dedicated to the project's legacy. A significant portion of the day was dedicated to a collaborative workshop to develop a robust **Sustainability and Transferability Plan**. This plan aims to ensure that the project's results and innovative methodologies continue to be used and have a lasting impact on vocational training long after the project's official conclusion.

The two-day event in **Matera** was not just a conclusion, but a celebration of European cooperation. Bringing together partners from across the continent, the **Digital Inclusion VET** project has made significant strides in creating more inclusive and innovative learning environments.

Special thanks to all the project partners for their dedication and to **Studio Risorse Srl** for the excellent organization and warm hospitality in the beautiful city of **Matera**.
